Thomas Alva Edison
Fairfax County, Virginia

Bonnie, a real, nice, kid always. Good luck always (H.A.) Keep Don straight (H.A.) We love you and are in my thoughts. Have good times. Brenda

Thomas Alva Edison, from whom our school takes its name, is a man credited with many discoveries and innovations. One of the greatest inventions of this man is the electric light bulb which is exemplified by this year's cover.

In keeping with Edison's innovations, we have completely revamped this year's *Talon*. It is now in chronological order according to the seasons. The book starts with summer and many preparations for school. Autumn is next with the beginning of the new school year, followed by winter with school in full activity. Finally comes spring, with commencement and the end of school.

Other innovations include senior, faculty, and general directories. In addition to the directories we have tried to make it easy for you to find specific clubs, sports, etc. Therefore, at the top of each page, you will find an identification of the season and activity represented in that section.

It is our hope that you will find this year's *Talon* refreshing and memorable, and that this new format will serve as an example for further Edison publications.

The Keyettes is an organization comprised of girls who sponsor various activities designed to serve Edison and the community. Among the many activities in which the Keyettes participated this year were the publication of a student phone directory, cleaning up after football games, a Keyette convention, and the performance of skits during faculty appreciation week. This active organization also tutored elementary students and participated in Project Concern's "Walk for Mankind."

1971-72 was an unusual year for the Key Club. Almost losing their charter and changing sponsors in mid-year hurt them badly. New elections and better methods of choosing members put them back to normal. The Key Club did, however, participate in Labor Day and collect for the March of Dimes.

This girls' service organization was involved in many activities geared toward the general Northern Virginia area this year. Members participated in the "Walk for Mankind," made presents for children at Fairfax Hospital, gave a Christmas party for the Mount Vernon Day Care Center, and held a bunny raffle and a carnation sale.

Talon

The *Talon* was originated to provide the students and teachers of Edison with a pictoral collection of the year's events. This year the *Talon* staff changed the appearance of the book to better satisfy the student body. To raise money for these changes, the *Talon* sponsored Labor Day and held their annual Patrons Drive.

Foreign Students

Row One: E. Hoj, L. Harmon, T. Okamoto, S. Brown; Row Two: M. Contreras, P. Weddel, T. Brown.

Edison hosted three foreign exchange students this year. Patty Weddel's family adopted Marta Contreras from Chillan, Chile. Elise Hoj from Copenhagen, Denmark, lived with Lynn Harmon; Toshito Okamoto from Yokohama, Japan, spent the year with Scott and Traci Brown. Elise and Marty were sponsored by the American Field Service (A. F. S.), and Tosh was brought to the United States through the courtesy of the Browns.

The American Field Service is an organization which sends about 3,000 students from 65 different countries to the US each year. Each student is hosted by an American family and attends the area high school to see and experience a different culture.

The main purpose of A. F. S. is to live their motto, "Walk Together–Talk Together," and emphasize the goal that through a better understanding among the young people of the world, we can reach toward world peace.

Sponsored by the four service clubs at Edison, Keyettes, Key Club, Tri-Hi-Y and Hi-Y, the A. F. S. students give speeches at various schools, visit the Kennedy Center often, and spend a week in Washington, D.C., with a black family.

Japan: Toshito Okamoto

Denmark: Elise Hoj

The world in which we live is a world of human beings who do the good, the bad, the useless, the noble, the brave, the foolish and the wise things. No man exists alone, for everyone of us is touched by other people.

We may begin our lives by giving love to one other person, but if we are wise, that love extends to family, humanity. Each one of us sees life through his own window.

In honoring Thomas A. Edison in this, the tenth edition of the *Talon*, we have chosen to break away from the traditional eagle theme which has been used in the past nine editions. This break echoes this year's theme, change. Just as Edison altered the world through his inventions, we have altered the face of the *Talon*.

In the early fall, the yearbook staff sent out an opinion poll to the student body for suggestions on improving the book. The results were: a fall delivery, more candids, captions for the candids, paragraphs describing the organizations, and more color. We have complied with all these suggestions fully. It's true the reader may have trouble at first finding the different clubs, and the various sports aren't combined in one section; but our purpose has been to present the 1971-72 school year as it happened, not in a stiffly organized manner.

In the Nineteenth Century, a man named Thomas Edison created controversy and received criticism for his ridiculous talking machine, electric light bulb, and moving pictures. In 1972 the *Talon* will stir controversy and criticism for its unorthodox approach and purple cover. We hope that you will benefit from and come to enjoy this edition of the *Talon* as you have Edison's inventions. If you have criticism, please be constructive and give the 1973 staff suggestions. Better yet, join the staff and lend them a hand. In closing, this year's *Talon* staff wishes to express its appreciation to everyone involved in making this book a totally rewarding experience.

The 1972 *Talon* staff wishes to express its appreciation to the following people:
